PROFESSIONAL PROFILE

Dynamic and results-oriented Front End Developer with a proven track record of successfully transforming standalone applications into integrated solutions within merchant portals. Expertise in frontend ecosystem and building user-friendly interfaces, onboarding portals, and internal back-office systems.

PROFESSIONAL EXPERIENCE

- **Front End Developer - Banware GmbH**   (Mar 2021 - Current)
  Joined this fintech-startup as the first engineer and worked as the sole frontend engineer in a 3 person engineering team until it grew into a mid sized company. Built 4 complete fintech products from architecture to launch during this tenure.

SDE 2 (Apr 2022- current)

- Spearheaded transition of white label standalone product application to an **embedded lending tool** within merchant portals of partner platforms. Built a loan application with a **CDN-delivered frontend** while monitoring and resolving **production bugs**.
- Created a user-friendly **Next.js onboarding portal** for new merchants, incorporating Auth0 authentication for enhanced security.
- Identified and responded to market demand for extension to **loan refills and renewals**, leading to the 70 % extension of Merchant cash advance products with prompt delivery.
- Developed a **procedure-oriented internal back-office system for risk assessment**, automating 3 different manual processes through integration with external tools and **consolidation of user data**. Integrated **HubSpot**, chatbot, and **Codat** for real-time revenue data collection, enhancing risk assessment capabilities.

SDE 1 (Mar 2021 - Mar 2022)

- Led the ideation, architecture, and planning for a **whitelabel product catering to merchant cash advance loan applications for SMEs**, from inception to launch.
- Adapted the product to **12 partnering platforms**, addressing specific requirements and ensuring seamless integration. Partners include: Lieferando, Payone, Fiserv, Qonto, ecommerce one, Tidely, Handlerbund, Sumup, Fiserv, Agricap, Zalando etc.
- **Interviewed, onboarded, and mentored 4** junior frontend positions, contributing to team growth and expertise.
- Developed **industry-specific product offerings** and **pricing structures** optimizing application flows and features, increasing loan volume by 35%.
- Engineered a **Merchant portal tool for comprehensive loan tracking and management.**
- Implemented **Webflow landing pages** for 3 industry specific products and configured **Google Analytics** for tracking and optimization. Established **robust testing frameworks** and managed various technical aspects including routing, feature flags, refactor etc.

- **Freelance web developer and designer, Bangalore/ Berlin** (Jan 2020 - Feb 2021)

  Working on websites for small businesses & a pre-launch dating startup app.   Website   Portfolio
  Worked on graphic design, custom art, branding, logos & merchandise.   Website   Instagram

- **Associate architect at Genesis Planners Pvt. Ltd, Bangalore** (Aug 2017 - Dec 2019)

  *Meeting with clients to understand requirements, project planning, iterations and delivery.
  *Designed buildings, spacial planning, design delivery and follow up & building portfolios.

- **Intern at RSP Consultants Pvt. Ltd, Bangalore** (July 2016- July 2017)
